

Canadian
Light
Source Centre canadien
de rayonnement
synchrotron

Welcome to the Canadian Light Source!

Our synchrotron is used by more than 1,000 scientists from around the world every year in innovative health, agriculture, environment, and advanced materials research.

Three simple house rules:

1. Enjoy your tour

- Take pictures (no videos) and share them on social media, but please respect people's privacy.
- You may leave outerwear in our closet, though we are not responsible for lost or stolen articles.

2. Stay safe

- Don't take off your badge, stay with your tour guide, and always follow their instructions.
- Do not hold objects over the railing as they could fall and harm people working below.
- Food, drinks, and smoking are not permitted.
- Pets are not permitted, but service animals are welcome.
- In the event of an emergency, please alert your tour guide.

3. Be nice

- Visitors behaving in an abusive, disruptive, offensive or unsafe manner will be asked to leave.
- Wear clothing appropriate for a diverse public environment.
